 Mangiafuoco - Depth 34", Width 39", Height 77"

**Forno Toscano Margherita**

The Italian made Forno Toscano Margherita is the latest addition to our line of wood-fired ovens. This modern take on the traditional brick oven combined the speed and efficiency expected from the products we proudly carry with the authentic touch of old world cooking.

Made with the highest quality stainless steel, these ovens heat up to temperature in an incredible 10-15 minutes. Cook directly on the cooking stone to obtain incredibly crispy brick oven crust.
